

Reading Syllabus

Mrs. Robertson

We have started a new curriculum called Language! Language! Is a program that is designed to help students make rapid gains in reading and writing and to accelerate students' literacy achievement. Each lesson provides direct instruction in six areas of language arts:

- Phonemic Awareness and Phonics**
- Word Recognition and Spelling**
- Vocabulary and Morphology**
- Grammar and Usage**
- Listening/Reading Comprehension**
- Speaking/Writing**

There will be spelling tests every 5 lessons and vocabulary tests every 8 lessons. Students will keep all of their tests in their notebook in order to watch their progress throughout each book. At the end of each book, a fluency test will be given in order to see your student's progress.

We are very excited about this program and are eager to see the progress your student will make this year. Please feel free to contact me with any questions or concerns. My conference is from 11:05-11:45.
